The 5<sup>th</sup> Nordic Glaucoma Meeting will take place at Hotel Norge, located in the center of Bergen. It is an old and traditional hotel, which has been totally renewed over the last year, and therefore presents as modern with the best facilities. Both the light rail from the Flesland airport and airport busses will stop just outside the hotel.

Due to the cultural and musical event “Festspillene” most of the hotels are fully booked in this period. 200 rooms have been pre-booked at Hotel Norge, but if you want another accommodation, we advise you to book as early as possible.

The meeting is a collaboration between the Nordic Glaucoma Societies, and is open for every ophthalmologist.

For those who are interested, there will be a great opportunity to stay a night or two before and/or after the meeting to attend the cultural and musical event “Festspillene” ([www.fib.no](http://www.fib.no))

The western fjords of Norway have several times been announced as the No. 1 destination in the World by National Geographic. There are plenty of opportunities to do a fjord-cruise. ([www.visitbergen.com](http://www.visitbergen.com))

We are planning on organizing a group-tour: “Norway in a Nutshell” from Saturday afternoon to Sunday early afternoon, staying overnight in Flåm, Nærøyfjorden (World Heritage), ([www.norwaynutshell.com](http://www.norwaynutshell.com))

We hope to see you in Bergen May 24<sup>th</sup> -25<sup>th</sup> 2019.

The Norwegian Glaucoma Society
