

## ESASO FORUM 19 – 20 June 2020 eLos

### Friday 19 June 2020 Live Surgery

---

14:00-15:00	Monza, Italy	Michele Coppola
15:00-15:15	Discussion	Mario Romano
15:15-16:15	Lubljn, Poland	Robert Rejdak
16:15-16:30	Discussion	Mario Romano

### Saturday 20 June 2020 Diabetic retinopathy WITH DME

Director: Chang, - Corcostegui - Guarnaccia - Bandello  
Scientific Coordinator: Falcomata - Battaglia Parodi

---

#### DME Chair

09:00	New insight into the pathogenesis of dme
09:10	Imaging biomarkers
09:20	Current tx of DME
09:30	Auto assessment test
09:40	Clinical Case: DME with VA better than 0.4
09:45	Clinical Case: DME with VA better than 0.8
09:50	Clinical Case: DME refractive to anti-VEGF
09:55	Clinical Case: DME switched to fluocinolone
10:00	Clinical case discussion

#### Virtual Connections in DME

- 10.10 The importance of Multimodal Imaging in diagnosis
- 10.20 Intravitreal injections in DME: the start makes the difference
- 10.30 DME 2020: from the role of aVEGF to clinical practice
- 10.40 Q&A

## DR

Chair

- 10:30 Discussing the possible treatment options in PDR
- 10:40 Is the OCTA assessment of capillary non-perfusion reliable?
- 10:50 Future therapeutic applications
- 11:00 Auto assessment test
- 11:10 Clinical Case: Treatment of a Florid PDR
- 11:15 Clinical Case: Treatment of a PDR still active after PRP
- 11:20 Clinical Case: PDR with vitreomacular traction
- 11:25 Clinical Case: Treatment of a PDR with a single bleeding epiretinal neovascular tuft
- 11:30 Clinical case discussion
- 11:50 Key note lecture : Surgical management of DR

## Treat and Extend regimen in clinical practice

Chair

- 11:50 Differences in treatment regimens with anti-VEGF
- 12:05 Challenges in the implementation of Treat and Extend regimen in clinical practice
